EDUCATION

University of Southern California
M.S., Financial Engineering
May 2020 | Los Angeles, CA

University of Southern California
B.S., Mechanical Engineering
Minor, Sports Media Studies
May 2019 | Los Angeles, CA

LANGUAGES

Python | R | SQL | LaTeX

TECHNICAL SKILLS

Data Analysis
Python, R, SQL, Snowflake, Microsoft Excel

Presentation
Python, Microsoft PowerPoint, LaTeX

DevOps
Git, GitHub, Bitbucket, Jira, Confluence

INTERESTS

Sports

Baseball
Major League Baseball
SABR
Fantasy Baseball
Scoring Baseball Games
Baseball Cards

Football
College Football
Fantasy Football

Hobbies

Fitness
Running
Swimming
Lifting

Pastimes
Coding
FIRST Robotics
LEGO
Star Wars

PROFESSIONAL EXPERIENCE

Acra Lending ▶ Senior Decision Scientist
May 2026 – present | Irvine, CA

- Developed a pull-through model for the $500MM/month Wholesale and Correspondent pipeline, estimating funding probability and timing and flagging at-risk loans daily
- Built a Python platform tracking prepayment and credit performance (CPR/CDR, delinquency, loss) across a $14B servicing portfolio, up from $9B in 2025, reconciled to dv01 and servicer data
- Forecast daily fundings and WAC progression for Capital Markets from loan-level pull-through under pipeline, trade-size, and sell-lag scenarios
- Identified $271MM of servicing transfers and MSR sales misclassified as payoffs, correcting retained-portfolio prepayment speeds
- Migrated loan-level pipelines from SQL Server to Snowflake with source-system crosswalks and loan-level parity tests

SG Capital Partners ▶ Capital Markets Associate
Aug 2022 – Mar 2026 | Stamford, CT (Remote)

- Directed AI adoption strategy by overseeing workspace initiatives, showcasing generative AI applications, and leading firmwide engagement sessions
- Led 1-on-1 strategic sessions with the CEO to develop and refine AI initiatives for senior leadership review and adoption
- Constructed cashflow models for RMBS and whole loan pools in Python using object-oriented programming and recursive algorithms
- Facilitated residential loan origination by cultivating correspondent channel relationships with prospects and existing clients
- Distributed monthly commentary on Home Price Appreciation to 1,000+ industry recipients
- Monitored loan portfolio performance using servicing remittance data with Python

Impac Mortgage Corp. ▶ Capital Markets Analyst
Sep 2020 – Aug 2022 | Irvine, CA

- Developed competitive pricing analysis reports with Python web-scraping methods
- Assessed pipeline health and presented visualizations with Power BI
- Optimized data acquisition for internal reporting using T-SQL

INTERNSHIPS

USC Football ▶ Player Personnel Intern & Analytics Specialist
May 2019 – Jul 2020 | Los Angeles, CA

USC Sports Information Office ▶ Student Intern
Aug 2016 – May 2020 | Los Angeles, CA

LenderLive Network ▶ Capital Markets Intern
Jun 2018 – Aug 2018 | Aliso Viejo, CA

Oliver Wyman ▶ Actuarial Consulting Intern
Jun 2017 – Aug 2017 | Los Angeles, CA

PROJECTS

Organized and Optimized my 10,000+ Baseball Card Collection	2021 – pres.
Built Python script to scrape flight data from Kayak and export results to Excel	2024
Parsed sheet music to track rhythm pacing for *The Star-Spangled Banner* (Link)	2024
Built customizable baseball scorecard in LaTeX for game scoring	2023
Automated draft prep with a script that scrapes and merges fantasy football data	2021
Developed Analytics for my Blog on *The Bachelor* and *The Bachelorette* (Link)	2019 – 2021
Developed RSelenium scraper to monitor LEGO set inventory across stores (Link)	2021
Analyzed Star Wars music with R/Shiny app using Spotify API (Link)	2020
Conducted Master's Research on MLB Player Value (Link)	2020
Created a Football Recruiting Scraping Algorithm "worth $1 Million"	2020
Created a College Football Quarterback Statistic	2018
